## Sanitaryware Features

There are many features in our sanitaryware range. Use the icons to help choose the right option for you.

**Rimless**  
Rimless flushing, hygienic and easy to clean.

**Comfort Height**  
The comfort height option sits several centimetres taller than standard WCs.

**Short Projection**  
Space saving short projection pans, ideal for small washrooms.

**Right Hand Flush**  
Ergonomically positioned cistern handle for convenient flushing.

**Air Gap**  
Provides an air space between your tank's water level and your municipal refill line to ensure that cross contamination and back-siphonage is impossible.

**Full Flush Volume**  
The total volume of water discharged from the flushing system during a flush cycle.

**Dual Flush Volume**  
The dual flush allows you to save water while providing you with the flexibility to choose between a water saving 4 litre flush or a standard 6 litre flush.

**Eco Dual Flush Volume**  
A more effective water saving flush volume. The dual flush allows you to choose between a water saving 2.6 litre flush or a standard 4 litre flush.

**Quick Release**  
Easy to operate quick release hinges allow the seat to be lifted away easily, leaving clear access to clean hard to reach surfaces.

**Top Fix Hinges**  
Some seats feature a special 'top fix' hinge allowing them to be quickly and easily installed on modern WC pans.

**Soft Close**  
The hydraulic hinge mechanism ensures controlled and quiet closure of the seat lid and ring.

# Comfort Height Pan. Short Projection Pan. What's the difference?

## Comfort Height Pans

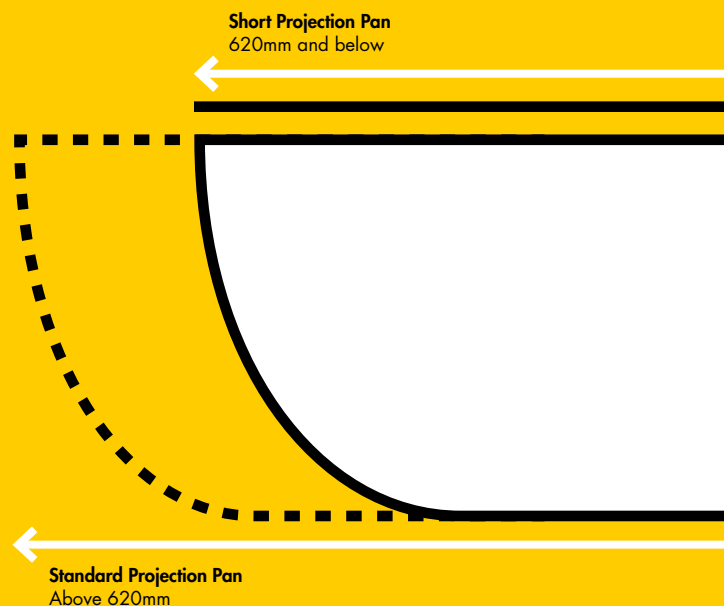

Comfort height pans are designed to ensure that the bowl and seat height is such that they make for comfortable use. Typically comfort height pans are 450mm and above (standard height pans are approximately 400mm in height) and can be particularly useful for the elderly and people with mobility issues.

## Short Projection Pans

A short projection pan means that it has a shorter depth than standard, and therefore does not protrude as far, taking up less floor space. Typical short projection pans are 620mm\* and below (standard projection pans are typically above 620mm). A short projection pan is ideal for a small bathroom or cloakroom suite.

*\*620mm is relevant to Close Coupled suites. Below 500mm is considered short projection for Back to Wall and Wall Hung Pans.*

Please look out for the comfort height and short projection icons in the following sanitaryware pages. Alternatively, use the range selector on page 25 and discover which of our Instinct Sanitaryware have comfort height and short projection pan options.

**1. Finned bushing**  
Eliminates the gap in the mounting hole, preventing hinge movement.

**2. One-piece nut**  
Provides superior clamping force, is easy to install, no additional parts to fit and no corrosion.

**3. Shear point**  
The bottom of the nut breaks off at the optimum tightening torque, indicating a perfect installation.

### Min 0.1 Bar

**Maximum Operating Pressure**  
Suitable for a system with high water pressure.

### Max 6 Bar

**System Pressure**  
Recommended minimum system pressure. Low Pressure at 0.1 Bar, Medium Pressure at 0.5 Bar, High Pressure at 1.0+ Bar.

### LP MP HP

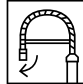

**Flexible Hose**  
Supplied with flexible hose for easy installation.

**Flow Straightener**  
Supplied with flow straightener outlet option.

**Flow Aerator**  
Supplied with water saving aerator outlet.

**Pull Out Spout**  
Pull out spouts feature a spray head that can be pulled directly out of the tap body.

**Backnut**  
Supplied with a metal backnut.

**Single Flow**  
This single tap style mixes hot and cold water in the body of the tap.

**Dual Flow**  
This tap keeps the flow of hot and cold water separate in the body to prevent uneven pressure.

### Flow Rate – X.X l/min

**Flow Rate**  
Flow rate shown is based on testing conducted against published pressure using the following criteria. LP at 0.2 bar. MP at 0.5 bar. HP at 3 bar.

### Fast Fix

**Fast Fix**  
For a quick and easy installation that allows assembly by hand, without any tools.

**Cold Open**  
The cold open cartridge system ensures mixer opens with cold water only avoiding the unnecessary use of hot water to deliver energy savings.

## Shower Enclosure + Shower Seat Features

There are many features in our shower enclosure and shower seat range. Use the icons to help choose the right option for you.

**Lifetime Guarantees**  
Instinct 6 shower enclosures all come with a lifetime guarantee.

**Glass Thickness**  
All our shower enclosures feature toughened safety glass. Safety glass is around five times stronger than normal glass.

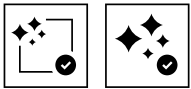

**Reversible**  
The shower enclosure is reversible for left or right hand applications.

**Magnetic Door Strips**  
Magnetic seals provide a water tight seal on shower enclosure doors. These seals have sufficient magnetic strength that latches are not required.

**Easy Install**  
Shower enclosures designed for a quick and easy installation.

**Easy Clean Glass / Seats**  
Designed and manufactured to present easy cleaning ability to ensure your shower enclosure or shower seat lasts for many years.

**Weight Limit**  
Shower seats are designed to safely hold a maximum weight limit.

## About Grant Westfield – The UK’s Best Selling Bathroom Wall Panels

Create beautiful spaces with our waterproof bathroom wall panels, the luxurious and modern way to decorate your bathroom. Our beautiful wall panel collections come in a range of sizes and finishes, including marble, stone and wood, offering you a range of design possibilities, allowing you to reinvent your bathroom in a style that is uniquely yours.

Our unique Hydrolock installation system makes it possible to join panels from our Tile, Pure, Linda Barker, Contemporary and Classic Collections together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for grout, meaning less time cleaning grout lines and mould. Panels in our collections are also Forest Stewardship Council (FSC C128180) and Made In Britain certified, meaning that they are made in the UK from sustainable materials, helping to protect our forests for the future.

Tiles, its time to move on.

### Hydrolock®

Multipanel panels are available with Hydrolock® tongue and grooved edge for easy click-into-place installation.

#### Hydrolock Installation

To ensure our panels can be installed to show off their true potential, we created Hydrolock, a unique solution which makes it possible to join panels from our collections (Naturepanel, Tile, Pure, Linda Barker and Contemporary) together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for profiles and can even be installed on uneven walls. Hydrolock panels are available in a range of widths for ease of installation – 2400 x 598 mm, 2400 x 900 mm, 2400 x 1200 mm.

The Hydrolock joint reduces the finished face by 20mm i.e. 2400mm x 1200mm becomes 2400 x 1180mm. Straight edge panels are also available.

## About Perform Panel – Today's alternative to tiles

With easy installation, no grouting and a unique high-performance fitting system, Perform Panel is the beautiful, efficient, modern alternative to tiles. Available in a large selection of stylish designs across our core ranges. Perform Panel works with any interior scheme. Made in the UK by a family firm trusted by the building industry for 160 years.

Nu-Lock Joint

### Nu-Lock

Manufactured using 7-ply birch plywood, with a "click" tongue and groove finish as standard, creating a seamless joint and look to each panel.

## Perform Panel Trims

The edges of Perform Panel wet wall panels are square and these can be finished in a choice of satin anodised aluminium (SAA), chrome, white, black, brushed black or brushed brass to complement the panel and its surroundings.

## Going Green

We, as Instinct, have a responsibility to the environment. Our aim is to have 100% recycled packaging and continue to work with industry bodies to help customers use their water more efficiently, therefore reducing energy bills and ultimately carbon emissions.

Where required our Instinct products are individually and legally tested to ensure compliance with CE and UKCA Marking. This not only covers material quality but also lifecycle, product impact testing, water integrity and traceability of manufacture.

When it comes to the paper used in the production of this brochure or the wood used in our Wall Panels and Furniture, we have sourced as many products as possible with an FSC® (Forest Stewardship Council®) label or PEFC (Programme for the Endorsement of Forest Certification) accreditation. The FSC® label guarantees that the product originated from managed forests, recycled paper or a combination of both. Products carrying the FSC® label are independently certified to assure that they come from forests that are managed to meet the social, economic and ecological needs of present and future generations.

As a brand, Instinct is committed to protecting the environment and is constantly exploring ways it can improve on this.
