### IMPORTANT

- When working at heights, please use a suitable platform to work from.
- Please note: For new installations, check for any electrical cables or pipe work (gas/water) in the vicinity of the intended mounting point before proceeding with the installation.
- Ensure that the fixing location is able to take the weight of the complete fitting. Wear suitable eye protection when drilling. Be careful when using power tools near water.

## Installation procedure

1. Open the carton and make sure all the parts listed below are present

2. Mark a desired height of the mirror. Drill the required holes and insert the wall plugs.  
 Note: Wall plugs supplied are only suitable for solid stone/brick walls. Please ensure the screws are fully tight. The mirror can be mounted either portrait or landscape.

3. Make the electrical connections ensuring first that the electrical supply has been turned off. This mirror is a class 1 product and requires an earth connection. It should be installed in accordance with the latest IEE regulations.

4. Hang the mirror onto the wall.

5. Switch Description

- Short press to switch LED lighting and demist on/off.
- Short press to switch between preset brightness levels.
- Press and hold to personalise the colour temperature of LED lighting.
- Press and hold to personalise the brightness levels of LED lighting.

Waste Electrical & Electronic Equipment Regulations (WEEE) requires that any of our products showing this mark (left) must not be disposed of with other household or commercial waste. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate any such product from other waste types and recycle it responsibly at your local facilities. Check with your Local Authority, Recycling Center or retailer for recycling advice.
