Espada 700mm Solid Surface Worktop

INST0414127, INST0414128, INST0414129

FAQs

Q – Are the worktops made from?

A – A homogenous compound mixture of polyester and aluminium trihydrate (derived from a natural Bauxite ore). Basically the same material all the way through so can be cut and sanded back to perfect finishes. Aluminium trihydrate is Moulded, vacuum treated and then finished by hand to create a perfectly smooth matt finish which is highly dimensionally accurate. Can be sanded and refinished should any stains occur due to misuse. Can be patch repaired by simple sanding back since material is homogenous (same all the way through).

Q – Are the worktops pre-cut for tap and waste hole?

A – No, they are plain and should be cut according to basin / tap selected. Instruction supplied with worktops to detail.

Q – Are the worktops reversible?

A – No, the top (main finish) is polished. Underside is unfinished.

Q – Can I use these worktops on other ranges?

A – They are designed to be perfect fit to Instinct range but it is possible to cut down and repolish edges if required.
