### Hanlith 1700mm Freestanding Double Ended Bath (Inc White Waste) INSHAN170FSBW

#### FAQs

**Q – What Trap is recommended for use with this bathtub?**

A – We recommend using a shallow bath trap with this bath tub. For other bath traps a void below the floor level may be required. The trap will require a 1 1/2" BSP connection to connect with the waste.

**Q – Is this bathtub supplied with a waste?**

A – No, bathtub slotted click wastes can be purchased separately from the Instinct bathroom collection in a range of finishes.

**Q – What colour is the overflow trim?**

A – The bathtub is supplied with a neutral overflow slot.

**Q – Do I need to purchase a bath tub overflow kit for this bath tub?**

A – No, the bathtub is fitted with an integrated overflow channel, the only additional purchase required is a slotted click waste.

**Q – What filling methods are recommended for this bathtub**

A – We recommend using a Freestanding Bath Filler/Bath Shower Mixer or a Wall Mounted Bath Filler.

**Q – How heavy is this bathtub?**

A – The unfilled weight is 36kg, the filled weight is 328kg. A structural engineer should be consulted to ensure that your floor is strong enough to support the weight of a filled bathtub.

**Q – What material is used to make this bathtub?**

A – This bathtub is made from a double skin of 3.2mm acrylic, each skin is reinforced by a double layer of insulating fibreglass and resin. The bottom of the bath tub is reinforced using a 6mm thick MDF base board.

**Q – Are the feet adjustable?**

A – Yes, the feet are adjustable by a range of over 100mm. The feet are also installed with a ball joint to aid with levelling the bathtub.

**Q – What is the overall capacity of the bathtub?**

A – 292 Litres.
