

IN-100 Corrosion Inhibitor (Contract Chemicals) 504582

Specification

Bottle Colour Code	Yellow
Bottle Dimensions	275(h) x 175(w) x 125(d) mm
Bottle Volume	5 Litre
Bottle Weight	4.9kg
Liquid Colour	Dark Straw
Dosing Amount	2000 litres
Shelf Life	Minimum 3 Years

Features

Usage	For the prevention of scale and corrosion in domestic and commercial wet central heating systems, including those filled with softened water. Provides long term protection against internal corrosion and hard water limescale formation. Extends the life of system components and helps maintain heating system performance. Compatible with all metals and non-metals commonly found in heating systems including aluminium.

IN-100 Corrosion Inhibitor (Contract Chemicals) 504582

Features

Dose Rate

Bottle contains 5 litres. Minimum dosage to achieve the NSF CIAS performance specification is 250ml per 100 litres of system water (up to 10 radiators). Compatible with aluminium. No problems occur through overdosing (up to double dose) or mixing of Instinct chemicals.

Application

Dose via the filling loop, feed and expansion tank or via any radiator or convenient filling point as per BS/7593:2006.

Leave in the system. For best results first flush system with Instinct IN-300 System Cleaner or Instinct IN-400 Sludge Remover.

Protection

At final fill add Instinct IN-100 Inhibitor to prevent scale and corrosion.

Health & Safety

Keep out of reach of children. Dispose of contents & container in accordance with national regulations.

Safety Data Sheet available upon request. **Do not use with PRIMATIC single feed cylinders.**
