

## RODS &amp; RAILS

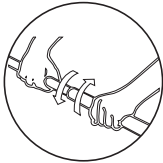

# 1100 - 1800mm Telescopic Rod, Chrome, 22mm diameter

## INSTAD101000PG

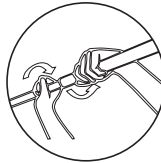

- 6ft Telescopic Shower Rod
- Length extends from 106cm to 183cm
- Firm, self-supporting rod
- Easy to fit, no tools required

### Easy To Install

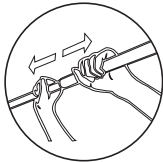

1. Grasp the two sections of rod firmly and unlock mechanism by twisting in opposite directions.

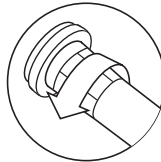

3. Further extend the rod to ensure a tight fit and twist to lock.

2. Extend rod to desired length and place in position between the two walls.

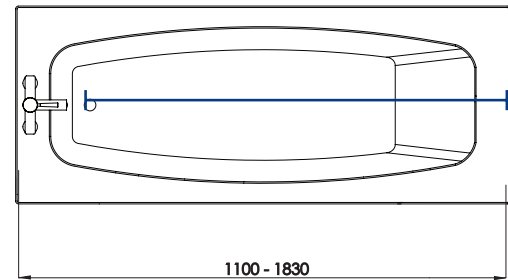

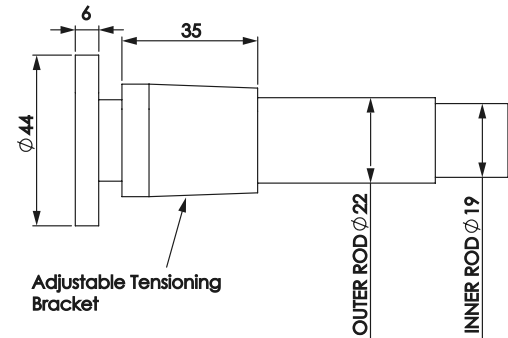

4. To obtain a very tight fit between walls, unscrew the plastic bracket.

Note: To allow for easy adjustment the adjustable bracket is not permanently attached to the rod and it is possible that it may become detached in transit. If so, simply replace the bracket on the end of the wider tube.

Please take care when fitting to avoid any damage to surfaces.
