Towel Rail Antifreeze 504773

Features

Dose Rate

Pre-mixed, ready for use. Use neat from the bottle. Do not dilute.

Directions for Use

Pour directly into towel rail (or heating/cooling circuit) to give burst protection down to -29°C . It is recommended that systems filled with antifreeze are drained and refilled every 5 years.

Health & Safety

Contains 40% monopropylene glycol. Keep out of reach of children. Dispose of contents & container in accordance with national regulations. Safety Data Sheet available upon request. **Do not use with PRIMATIC single feed cylinders.**
