# Instinct Pro – we've got you covered

Welcome to the Instinct Pro Plumbing and Heating Collection 2024/25.  
A comprehensive quality range of plumbing and heating products  
designed with the Installer and Heating Engineer in mind.

## Designed for performance, quality and reliability

The Instinct Professional brand offers trade customers an excellent  
choice of plumbing and heating products for everyday projects.

Our heating range includes underfloor heating, boilers, cylinders and  
peripheral components including radiators and towel rails in a choice  
of sizes and finishes to suit your space.

Within our plumbing range you will find, heating system chemicals,  
scale inhibitors, magnetic filters as well as plumbing tools and an  
extensive range of pre-packed fittings.

At Instinct Pro we believe in quality manufacturing and pride ourselves  
on providing a wide range of plumbing and heating solutions  
designed and manufactured in the UK.

**If you are looking for a cost effective plumbing  
+ heating solution for a range of domestic installations,  
Instinct Pro can provide the answer for you.**

# Underfloor Heating Designs Made Simple

All-in-one tool for calculating, designing, specifying and drawings.

**Heat Load Calculations**

Simplify your heat load calculations in alignment with industry standards

**System Sizing**

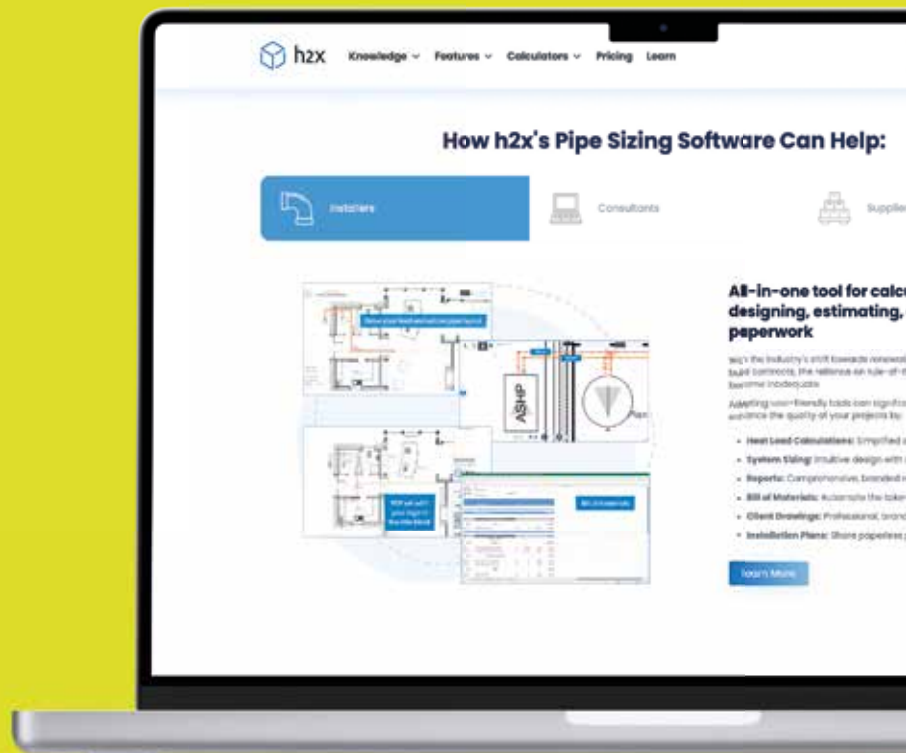

Automatically generate loop layouts with required pipe spacings

**Reports + Client Drawings**

Generate branded drawings and reports including system performance, energy usage and more

**Bill of Materials**

Download the automatically generated, detailed Bill of Materials with product specification

Get your free 2-week trial and/or book a free demo today at [www.h2xengineering.com](http://www.h2xengineering.com)

# Manifold

## Guarantees

**5** Years  
on Stainless Steel Manifold

new

### Stainless Steel Manifold (Hydraulic Balancing)

Stainless Steel manifold for HVAC systems with Hydraulic Balancing and independent setting from each individual circuit.

#### Features + Benefits

Delivery manifold with flow meters with fluid shut-off function

Return manifold with hydraulic flow balancing valves and manual handwheel (M30 x 1.5mm connection), prearranged for thermoelectric command via actuators that can be installed after fitting the relative ring nut (to be ordered separately)

Drain valves and manual air vent valves, pressure gauge

Key for presetting

Finish – Stainless Steel

Seals – EPDM

Handle – ABS

Springs – Stainless Steel

Brackets – Chrome plated steel

Adaptors – Brass

## Instinct Pro Hydraulic Balancing Manifold and Gauges – Makes for Easy Installation, Commissioning and On-Site Testing

### 230V UFH Actuator

The valve actuator helps improve the energy efficiency of the system by allowing individual room temperature control.

**Features + Benefits**

- Normal Closed (NC)
- Complete compatibility to valve adapter system
- Simple snap-on installation
- 360° installation position
- Patented 100% protection against leaky valves
- First open function (NC type only)
- Adaptation check on valve
- Alignment aid on the valve
- Surge protection
- Certified by LL-C

Finish – Yellow  
 Dimensions – 62(h) x 42(w) x 42(d) mm  
 Stroke – 3mm  
 Power Consumption – 2W

**IN-2033-230V** 230V UFH Actuator

**Specification**

Operating Voltage	24V/230V AC (+/-15%) 50/60Hz
Maximum Inrush Current	< 200mA during 100ms max
Operating Power	2W
Stroke (Actuator Travel)	3mm
Actuating Force	100 N +10%
Storage Temperature	-25°C to +60°C
Degree of Protection	II
Type of Protection	IP54
CE Conformity	EN 60730 EN 61000
Connecting Cable/Colour	2 x 0.5mm <sup>2</sup> PVC / Light Grey
Cable Length	1m
Surge Protection	2.5 kV
According to EN60335-1	

# Blending Valve + Pump Pack

## Guarantees

**5** Years  
on Blending Valve

**5** Years  
on Bastion Pump

**2** Years  
on Wilo Pump

**new**

## Blending Valve + Pump Pack

Designed to work with manifolds of all types, on 210mm centres. The thermostatic blending valve is a bolt on unit providing a quick and simple system to install.

### Features + Benefits

Supplied with A rated 6m pump (either Bastion or Wilo) and 3/4" ball valves

The water supply temperature can be adjusted according to the structure of the floor

Designed for heat pump and low temperature systems that do require a thermostatic control valve

Finish – Chrome Plated

Dimensions –

300(h) x 196(w) x 128(d) mm (IN-2536J+BAS-PUMP)

302(h) x 230(w) x 122(d) mm (IN-2536J+WILO-PUMP)

Weight –

3.7kg (IN-2536J+BAS-PUMP)

1.87kg (IN-2536J+WILO-PUMP)

### IN-2536J+BAS-PUMP

UFH Blending Valve +  
Pump Pack (Bastion Pump)

### IN-2536J+WILO-PUMP

UFH Blending Valve +  
Pump Pack (Wilo Pump)

### Specification

Medium	Water or glycol solution
Maximum Glycol %	30%
Maximum Working Pressure	6 Bar
Working Temperature Range	90°C
Adjustable Control Temperature Range	35 to 60°C
Thread Connections	BS EN ISO 228-1
Kv Value	2.8m <sup>3</sup> /h Dp = 1 Bar; Tmix = 45°C

## Bastion Pump

Finish – Electrophoretic Paint / Black  
Dimensions – 130(h) x 90(w) x 127(d) mm

**5**

### Specification

Energy Efficiency Index (EEI)	≤ 0.20
Maximum Delivery Head	6m
Maximum Volume Flow	3.0m <sup>3</sup> /h

## Wilo Pump

Finish – Composite Body / Grey  
Dimensions – 139(h) x 93.5(w) x 123(d) mm

**2**

### Specification

Energy Efficiency Index (EEI)	≤ 0.20
Maximum Delivery Head	6.3m
Maximum Volume Flow	2.6m <sup>3</sup> /h

**Guarantees**

- 5** Years on Single Room Control Pump
- 5** Years on Bastion Pump
- 2** Years on Wilo Pump

# Single Room Control Pump Pack

**Single Room Control Pump Pack**

UFH control pack for providing temperature controlled mixed water in single room applications to an underfloor heating system with a heat output up to 3Kw. The pump is pre-wired in conjunction with a flow temperature thermostat and mains connection cable and has provision to connect a room stat. The unit has integral ball valves for connecting/isolating the primary heating system, an adjustable thermostatic blending valve and an 'A' rated 6m circulating pump all secured to a fixing bracket with anti-vibration mountings for silent operation. G½" tappings are provided for use with any adaptors to connect the unit to the floor heating loop or manifolds.

**Features + Benefits**

Includes ½ to ¾" fittings excluding euro cones

Finish – Chrome Plated

Dimensions –

302(h) x 230(w) x 132(d) mm (IN-2532J+BAS-PUMP)

302(h) x 230(w) x 138(d) mm (IN-2532J+WILO-PUMP)

Weight –

4.265kg (IN-2532J+BAS-PUMP)

2.43kg (IN-2532J+WILO-PUMP)

**IN-2532J+BAS-PUMP**      UFH Single Room Control Pump Pack (Bastion Pump)

**IN-2532J+WILO-PUMP**      UFH Single Room Control Pump Pack (Wilo Pump)

**Specification**

Medium	Water or glycol solution
Maximum Glycol %	30%
Maximum Working Pressure	10 Bar
Working Temperature Range	90°C
Adjustable Control Temperature Range	35 to 60°C
Thread Connections	BS EN ISO 228-1

Maximum Volume Flow	2.6m³/h

# Floor Boards

## Fibre Reinforced Gypsum Board

Low profile high performance underfloor heating board. Manufactured from reinforced gypsum, the CNC routed panels are engineered to provide optimum underfloor heating conditions in new build and refurbishment developments.

100% dry system that is able to accept various floor finishes (carpets, wood floors, ceramic tiles etc) with 24 hours of installation. A significant time saving benefit over wet system alternatives.

### Features + Benefits

Efficient and fast transfer of heat

Suitable for all types of 10,12,16mm pipework

High heat retention

Can be installed as an acoustic system on separating floors

CNC routing options – straights, circles, radius returns and universal

Finish – White

### 150mm Centre

**INHEATS018800** Grooved + Straight UFH Board  
18mm x 600mm x 800mm for 12mm Pipes

**INHEATSR0181200** Grooved UFH Board (With Serpentine Looped Returns)  
18mm x 600mm x 1200mm for 12mm Pipes

**INHEATRU0181200** Grooved UFH Board (With Serpentine Loops + 3 Cross Runs)  
18mm x 600mm x 1200mm for 12mm Pipes

**INHEATC018600** Fully Circled End Return UFH Board  
18mm x 600mm x 600mm for 12mm Pipes

### 60mm Centre

**INHEATT015600600** 90° Flow + Return Highway UFH Board  
18mm x 600mm x 600mm for 12mm Pipes

**INHEATH018800** Straight Flow + Return Highway UFH Board  
18mm x 600mm x 800mm for 12mm Pipes

### Specification

Density	1200 kg/m <sup>3</sup>
Thermal Conductivity	0.32 W/mk

## Foil Faced Chipboard

A range of CNC grooved chipboards suitable for underfloor heating applications. The high performance boards are available in 1200mm and 2400mm lengths, and finished with a foil facing depending on your project. Boards provide extremely efficient and high performance underfloor heating for building occupants. They are ideal for all types of developments including residential, care homes and offices.

This system is ideal for replacing existing floor boarding on timber joisted floors as it has minimal impact on floor heights.

### Features + Benefits

High heat output, with foil facing and pipe centre options

Suitable for all types of 10,12,14 and 16mm UFH pipes

Faster response times – UFH pipes are closer to surface finish than traditional FFB (fit from below) installation

Structurally tested to comply with BS:EN1195

Finish – Aluminium / Silver

### 150mm Centre

**INCHIP0226002400R-FF-12/150** 50mu Foil Faced UFH Chipboard  
(With Handed Radius Returns Throughout the Board)  
22mm x 2400mm x 600mm for 12mm Pipes

**INCHIP0226002400R-FF-16/150** 50mu Foil Faced UFH Chipboard  
(With Handed Radius Returns Throughout the Board)  
22mm x 2400mm x 600mm for 16mm Pipes

**INCHIP0226001200R-FF-12/150** 50mu Foil Faced UFH Chipboard  
(With Handed Radius Returns Throughout the Board)  
22mm x 1200mm x 600mm for 12mm Pipe

**INCHIP0226001200R-FF-16/150** 50mu Foil Faced UFH Chipboard  
(With Handed Radius Returns Throughout the Board)  
22mm x 1200mm x 600mm for 16mm Pipes

### Specification

Moisture Absorption	0.6%
---------------------	------

# Floor Boards

## Routed Extruded Polystyrene (XPS) Board

A range of high quality underfloor heating insulation boards, featuring CNC grooved channels for UFH pipes to be installed.

Insulation boards provide extremely high compressive strength, with 300kPa from 18mm thickness offered as standard.

These high performance underfloor heating panels are ideal for new build and refurbishment projects, and are ideal for all types of developments including onsite, residential and commercial applications.

### Features + Benefits

High thermal performance, with an option of foil facing

Suitable for all types of 10, 12, 16mm UFH pipes, multiple thickness' available

Ultra high compressive strength and high heat transfer

Can be used as part of an acoustic system on separating floors

Finish – Aluminium / Silver

150mm Centre	
INXPS0186001200(300)R-12/150-FF	300kPa, 50mu Foil Faced UFH Panel (With Serpentine Loops + 3 Cross Runs) 18mm x 600mm x 1200mm for 12mm Pipes
INXPS0206001200(300)R-16/150-FF	300kPa, 50mu Foil Faced UFH Panel (With Serpentine Loops + 3 Cross Runs) 20mm x 600mm x 1200mm for 16mm Pipes
INXPS0256001200(300)R-16/150	300kPa, Plain Faced UFH Heating Panel (With Serpentine Loops + 3 Cross Runs) 25mm x 600mm x 1200mm for 16mm Pipe

Specification	
Compressive Strength	300kPa
Thermal Conductivity	0.034 W/mk
Moisture Absorption	<0.7% (EN 12087)
Reaction to Fire	Euroclass E (EN 13501-1)

## Thermal Perimeter Edge Strips

A range of high performance perimeter edge strips, offering a thermal break on the perimeter of each heated floor and also allowing for contraction and expansion of all types of screeded floor finishes.

The closed cell polyethylene foam rolls are available with options of bonded PVC apron and self adhesive backing.

Successful installation of perimeter edge strips will also help with the overall thermal performance to achieve specific U-value and general part L regulations.

### Features + Benefits

Lightweight, easy to handle and quick to install

100% recyclable. Zero VOC's – Zero CFCs, Zero ODP's – GWP <5

Available in multiple widths and lengths

Will improve the overall thermal performance and efficiency of floors

Finish – Blue and Grey

Edge Expansion Foam	
INDGET05100255A	5mm x 100mm x 25m rolls (With Bond PVC Apron + Self Adhesive Backing – Low Profile Edge Strip)
INDGET0510050	5mm x 100mm x 50m rolls (With Bond PVC Apron)
INDGET0815025ADH	8mm x 150mm x 25m rolls (With Bond PVC Apron + Self Adhesive Backing)

Specification	
Working Temperature	-60 / +80°C
Material	Extruded closed cell polyethylene foam
Water Absorption	0.02 - 0.03 mg/cm <sup>2</sup>

## Electric Underfloor Heating Features

There are many features in our electric underfloor heating range. Use the icons to help choose the right option for you.

**Touch Controls**  
Multi function touchscreen providing effortless control at your fingertips.

**Customise Display**  
Personalise with photo backgrounds, the only underfloor heating thermostat with this ability.

**Colour Display**  
Clear graphical display makes any adjustment quick and easy. Choose the display style that suits you best – wide choice of screen themes.

**Mono Display**  
Easy-to-use interface and intuitive design enables end users to choose the time as easily as they would with a watch or clock and quickly set their programs.

**WiFi Control**  
Allows you to link your thermostat with your home's existing Smart technologies such as the Amazon Echo or Google Home.

**App Control**  
SmartGeo is a unique technology developed by Warmup and built into the MyHeating App that uses an advanced algorithm to understand the most efficient heat settings for your home.

**Compatible with Smart Devices**  
Monitor your energy + cost graphs on mobile, tablet and desktop.

**IP20 Rated**  
The thermostat is touchproof and will be resistant to dust or objects that are over 12mm in size. However, it has no protection whatsoever against water.

**IP33 Rated**  
The thermostat is protected from tools and wires greater than 2.5mm. Protected from water spray less than 60 degrees from vertical.

## DCM-PRO™

Take a closer look at the DCM-PRO™ features video, scan to find out more

### DCM-PRO™ – Heated Decoupling System

Warmup DCM-PRO™ is an electric underfloor heating system that provides anti-fracture protection to tiled floor finishes. There are two alternative decoupling membranes within the range; one is backed with a standard non-woven fleece, the other a peel and stick adhesive, which provides the fastest solution for installing electric underfloor heating.

The patented membranes provide a versatile solution for any heated floor, with the peel and stick version being ideal for rapid installation over Warmup™ insulation or smooth subfloors, while the fleece backed version is better suited to coarse and/or damp surfaces.

#### ● Anti-Fracture Protection

DCM-PRO™ Peel and Stick uses a viscous adhesive that absorbs the strain created as the subfloor grows and shrinks with the seasons, protecting the floor finish from excessive stress that would otherwise cause cracks. DCM-PRO™ Fleece uses a traditional decoupling fleece layer, perfect for use with levellers or for installation on damp or coarse subfloors.

#### ● For a Variety of Floor Finishes

Designed for use under tile and stone floor, the DCM-PRO™ can also be installed under other flooring types including vinyl, carpet and timber by adding a 10 mm layer of levelling compound to the membrane first.

#### ● Fastest to Install

DCM-PRO™ Peel and Stick with its self-adhesive underside can be affixed directly to the subfloor, eliminating the need to use tile adhesive below, significantly reducing installation time.

### Protects Floor from Damage

Rated as high performance, DCM-PRO is proven to protect tiled floors from cracking (ANSI 118.12.5.4).

The self-healing decoupling layer contracts and expands to ideal with seasonal changes, preventing damage occurring from gaps and cracks in the subfloor. (Patent No. GB2548319B).

Protects floor surface from damage caused by subfloor movement.

Patented adhesive layer slides and stretches with expansion.

Adhesive layer contracts and self-heals if gap shrinks due to seasonal changes (typical for wood subfloors).

### Typical Floor Build-Up

- 1 Floor Finish
- 2 Flexible Adhesive
- 3 Floor Sensor
- 4 Decoupling Membrane (with adhesive backing)
- 5 Heating Cable
- 6 Warmup Ultralight™ (optional)
- 7 Flexible Tile Adhesive (optional)
- 8 Warmup Primer
- 9 Pre-insulated Subfloor (with a surface regularity of SR1\*)

\*If installing the optional Warmup Ultralight™, refer to its installation manual for its sub floor requirements

### DCM-PRO™ Mat – Specification

Product Code	DCM-M-# (Peel and Stick)
Colour	Red
Dimensions	DCM-M-1 – 1m <sup>2</sup> Sheet (980mm x 1040mm) DCM-M-15 – 15m <sup>2</sup> Roll (980mm x 15.3m)
Composition	Polypropylene mat with self-adhesive backing

### DCM-PRO™ Mat V3 – Specification

Product Code	DCM-M-# (Peel and Stick) DCM-F-# (Fleece)
Colour	Red
Dimensions	DCM-#-0.73 – 0.73m <sup>2</sup> Sheet (985mm x 741mm) DCM-#-14 – 14m <sup>2</sup> Roll (985mm x 14.3m)
Composition	Polypropylene mat with peel and stick or fleece backing

## DCM-PRO™

### DCM-PRO™ Cables – Specification

Product Code	DCM-C-X
Connection	3m long coldtail Flat 2 core cable with earth braid
Operating Voltage	230 V AC: 50 Hz
Output Rating	(3 castellations – 90 mm) DCM-C: 150 W/m <sup>2</sup>
Heating Cores	Dual core, multi-strand heating element
ASTM C627	Light Commercial Use
Cable Sheath	Blue
IP Rating	X7
Inner / Outer Insulation	ETFE / PVC
Earth Protection	Metal braiding surrounding heating cores
Min. Install Temp.	-10 °C
Spacing	60 mm / 90 mm / 120mm

### Convenient Sizing

The standard cable spacing is 3 castellations (90mm), but the system is designed to have the cable spacing adjusted to match both power and area requirements:

**DCM-PRO™ 225 W/m<sup>2</sup>** – based on 2 castellations

**DCM-PRO™ 150 W/m<sup>2</sup>** – based on 3 castellations (standard)

**DCM-PRO™ 112.5 W/m<sup>2</sup>** – based on 4 castellations

Heated area at different spacings, m<sup>2</sup>

	Castellations		
	2	3	4
	60mm	90mm*	120mm

### F&Qs

**Q – Can the DCM-PRO™ system reduce the risk of my tiled floor developing cracks?**

A – As a decoupling system, the DCM-PRO™ has been designed to absorb the normal lateral movement which occurs when the subfloor and finished floor expand and contract at different rates. This has been backed up with a 'High Performance' rating for crack isolation, as externally tested according to ANSI 118.12.5.4 (American National Standards Institute, www.ansi.org).

**Q – How does the DCM-PRO™ cable fit into the DCM-PRO™ mat?**

A – The DCM-PRO™ cable clips into the castellations of the DCM-PRO™ mat. No tools are required when installing the cable into the mat. It is easily installed by running your foot or thumb along the top of the cable to guide it into the castellations.

**Q – How quickly can I lay a floor finish onto the DCM-PRO™?**

A – Straight away. One of the main advantages of the self-adhesive properties of the DCM-PRO™ is no waiting time. As soon as the mat is fitted, cable installed and cable resistance checked, tiling or self-levelling can be started.

**Q – Can the DCM-PRO™ system be used in a wet room?**

A – Yes. With the addition of the DCM-PRO™ waterproofing tape installed following the manual, the system is waterproof and can be used in a full wet room environment.

## StickyMat™

Take a closer look at the StickyMat™ installation video, scan to find out more

### StickyMat™ – Heated Mat System

The Warmup StickyMat™ System is designed for use within the adhesive layer under tiles or within a levelling compound under other floor finishes. The fixed spacing and self-adhesive mat makes installation of regularly shaped rooms quick and easy whilst ensuring precision is maintained.

The pressure sensitive adhesive securely binds the mats to the floor, keeping them flat and ensuring the application of tile adhesive is snag free whilst allowing the mats to be easily repositioned as needed.

#### ✔ Quick + Easy Installation

Sturdy glass fibre mesh with pressure sensitive adhesive, for the fastest and most secure installation of electric underfloor heating

#### ✔ No Increase In Floor Levels

With an ultra-thin, dual fluoropolymer coated heating wire

#### ✔ Suitable For All Builds

StickyMat™ underfloor heating system is suitable for all building projects; retrofits, new builds and refurbishments

### StickyMat™ – Specification

Product Code	SPM / 2SPM
Connection	3m long coldtail, Flat 2 core cable with earth braid
Operating Voltage	230 V AC: 50 Hz
Output Rating	150 W/m <sup>2</sup> (SPM) / 200 W/m <sup>2</sup> (2SPM)
Heating Cores	Dual core, multi-strand heating element
Thread Connections	BS EN ISO 228-1
IP Rating	X7
Cable Sheath	Translucent
Cable Spacing	80 mm (+/- 3mm)
Mesh	Sticky pressure sensitive fibreglass mesh
Inner / Outer Insulation	ETFE
Earth Protection	Metal braiding surrounding heating cores
Min. Install Temp	-10 °C

### Typical Floor Build-Up

- 1 Floor Finish
- 2 Flexible Adhesive
- 3 Floor Sensor
- 4 Fibreglass Mesh (with pressure sensitive adhesive)
- 5 Heating Cable
- 6 Warmup Ultralight™ (optional)
- 7 Flexible Tile Adhesive (optional)
- 8 Warmup Primer
- 9 Pre-insulated Subfloor (with a surface regularity of SR1\*)

\*If installing the optional Warmup Ultralight™, refer to its installation manual for its sub floor requirements

## Foil Heater™

**Not Suitable for Bathrooms**

Take a closer look at the Foil Heater™ installation video, scan to find out more

### Foil Heater™

We recommend using the Warmup Insulated Underlay™ and Dual Overlay™ Systems for maximum efficiency.\*

The Warmup Foil Heater™ is an electric underfloor heating system. The Foil heater™ is fitted between the insulating layer and the floating floor deck, adding negligible height to the installation.

Parquet flooring, carpets, vinyls and other resilient floor finishes can be laid over the Warmup Foil Heater™ by using our Dual Overlay™ system to create a thin floating floor deck.

✔ **Diffusing Heat Evenly**  
Foil layer acts a continuous earth layer within the floor construction whilst also diffusing the heat evenly

✔ **No Self-levelling required**  
Installed directly under the floor finish; no self-levelling required

✔ **Regular Shaped Rooms**  
Ideal for regular shaped rooms, where the 0.5m wide mats can be rolled out across the floor in parallel runs

\*Excludes bathrooms

### Foil Heater™ – Specification

Product Code	WLFH
Operating Voltage	230 V AC: 50 Hz
IP Rating	X7
Width	500mm
Mat Thickness	3mm
Cable Thickness	1.8mm
Output Rating	140W/m <sup>2</sup>
Insulation	ETFE
Min. Install Temp	5°C
Connection	3m long coldtail Flat 2 core cable with earth braid

### Typical Floor Build-Up

- 1** Floor Finish  
Compatible floor finishes such as laminate, or carpet, linoleum and vinyl flooring if using Dual Overlay
- 2** Warmup Foil Heater™
- 3** Warmup Insulated Underlay™
- 4** Subfloor

### Foil Heater™ – 140W/m<sup>2</sup> System

	Area Heated	Wattage	Amps
WLFH-140W/140	1m <sup>2</sup>	140W	0.65A
WLFH-140W/210	1.5m <sup>2</sup>	210W	0.98A

## Warmup Insulated Underlay™

Take a closer look at the Insulated Underlay™ Installation manual, scan to find out more

### Warmup Insulated Underlay™

#### Effective acoustic properties to reduce contact noise.

Warmup Insulated Underlay™ is a 6 mm ribbed EPS foam insulation with metallised polyethylene foil backing.

Designed specifically for use under the Warmup Foil Heater™ system, it is installed between the subfloor and the Foil Heater™, reducing heat loss downwards, making the system more energy efficient.

Installation is quick, clean and dry, making it an easier option for installers. With the foil acting as a moisture barrier, it is installed foil side down, the protective film from the self-adhesive strip is removed and the underlay is stuck to the subfloor.

#### Improved Energy Efficiency

Insulates and reduces heat loss making the heating system more energy efficient

#### Variety Of Floor Finishes

For use under floating wood and laminate flooring or when installed in conjunction with Warmup Dual Overlay™, carpet, LVT, linoleum and vinyl flooring

#### Essential Heat Resistance

Warmup Insulated Underlay has a 1.7 tog rating. Essential when fitted with the Foil Heater™

### Warmup Insulated Underlay™ – Specification

Product Code	WIU
Size	Width - 1200 mm Coverage/Pack - 2.5m <sup>2</sup> , 5.0m <sup>2</sup> , 10m <sup>2</sup> , 25m <sup>2</sup>
Thickness	6 mm +/- 0.5
Composition	Top Layer – Ribbed EPS Bottom Layer – (silver) polyethylene foil backing
Density (kg/m <sup>3</sup> )	18
Impact Sound Reduction	21dB ΔLw *
Water Vapour Diffusion Resistance (SD)	> 100
Temperature Range	-30 °C up to +70 °C
Compressive Strength	43 kPa
Thermal Conductivity	0.033 W/m.K
Tog	1.7
Thermal Resistance	0.17 m <sup>2</sup> .K/W
Fire Class EN 13501	Bfl-s1

\*When installed with Warmup Dual Overlay

### Typical Floor Build-Up

- 1 6mm, 43kPa ribbed EPS insulation
- 2 Metallised polyethylene foil backing

### Warmup Insulated Underlay™ – Product

	Area Heated
WIU2.5	2.5m <sup>2</sup>
WIU5.0	5m <sup>2</sup>
WIU10.0	10m <sup>2</sup>
WIU25.0	25m <sup>2</sup>

### F&Qs

#### Q – What is it made from?

A – The top layer of the underlay is comprised of a 6mm grooved lightweight polystyrene (which offers added acoustic properties by reducing contact noise) and a bottom layer of silver foil which has an adhesive overlap to join subsequent rolls. The underlay has a sound reduction of 21dB ΔLw when used in conjunction with Warmup Dual Overlay™.

#### Q – What is an R Value?

A – The R value is a measure of thermal resistance used in the construction industry. A rating of 0.17 represents a low level of insulation for energy efficiency but promotes faster response times when used over an insulated subfloor.

#### Q – Can I use this under tiles and stone?

A – No. It is designed for installation with the Foil Heater™ when installed under soft and resilient floor coverings such as wood, carpet, vinyl and linoleum. When your finish needs to be fixed down (glued) such as carpet, then a combination of the Insulated Underlay™, Foil Heater™ and HiDECK Overlay 18™ should be used.

#### Q – What goes over Warmup's Insulated Underlay™?

A – Warmup's Insulated Underlay™ has been specially developed as part of a system with the Warmup Foil Heater™ and Dual Overlay™ or HiDECK Overlay 18™ to protect the heating wire from sharp heels and heavy point loads. The combined thickness of the Warmup Dual Overlay™ and the Warmup Insulated Underlay™ is 13mm.

## Warmup Ultralight™

Take a closer look at the Ultralight™ features video, scan to find out more

### Warmup Ultralight™

#### 4in1 (Insulating, Heat Spreading, Decoupling, Sound Reducing)

Ultralight™ is a specialised composite board designed for floor heating applications. Manufactured as flat, flexible sheets they are water and mould-resistant. The top surface incorporates a heat spreading aluminium layer combined with non-woven fleece.

The core PEF insulation provides thermal separation from the floor beneath, ensuring a rapid thermal response of a heated layer of tiles or levelling compound above.

#### ✔ Improves Comfort and Reduces Running Costs

The heat spreading aluminium layer improves comfort and reduces running costs by providing a 50 % more even heat spread. This enables the floor to achieve the same comfort temperature whilst using 12% less energy. See Fig 1

#### ✔ Reduces eUFH Heat Up Times

30% faster heat up times than standard insulation boards

#### ✔ Protection Against Tiles Cracking

Decoupling fleece layer provides high performance protection against tiles cracking due to lateral subfloor movement in accordance with ANSI A118.12 standard

### Heat Spread

6 mm Ultralight™ Insulation – 29°C Surface Limit

6 mm Traditional Insulation – 29°C Surface Limit

#### Fig. 1 – Improved Heat Spread of Ultralight™ Vs Traditional Insulation

When operating at a 29°C maximum surface temperature, traditional insulation would result in a minimum surface temperature just below 26°C. By comparison, Ultralight™ increases this to 27.5°C resulting in increased comfort and a 10.5% increase in heat output.

### Typical Floor Build-Up

- 1 Non-Woven Fleece
- 2 Heat Spreading Aluminium
- 3 220kPa Insulation
- 4 Decoupling Non-Woven Fleece

### Electric Systems – Compatibility

DCM-PRO™	✔
StickyMat™	✔

## Warmup Cement Coated Insulation™

### Warmup Cement Coated Insulation™

#### Waterproof Insulation for Walls + Floors

Warmup Insulation Boards are manufactured from water resistant extruded polystyrene, finished on both faces with a thin layer of fibreglass reinforced cement. They are available in a range of thicknesses, from 6mm to 50mm, to match individual project requirements.

They are ideal for tile backing applications on both walls and floors, with the internal layer of insulation capable of supporting 30 tonnes per square metre. The 1mm thick cement coating provides an excellent surface for tile adhesive, plaster and smoothing/levelling compounds, with no priming required.

#### ✔ Easy Cut + Shaped

Easy to cut and shape around fixtures with a knife or saw

#### ✔ A Range of Thicknesses

Comes in a range of thicknesses to suit floor and wall. It can be fixed to solid or stud walls applications

#### ✔ Creates Waterproof Layer

Can be used to easily create a waterproof floors and walls in wet rooms, just by adding silicone sealant to the edges of the board before butting them tightly together. High resistance to rot due to very low absorption rate

#### Heat Up Chart

In testing, heat-up time was cut from over 2 and a half hours to just 20 minutes. This data applies to Warmup heating products only. Source: Warmup tests performed to EN442-2 standards.

#### Typical Floor Build-Up

1 1mm Cement coating with fibreglass mesh

2 300kPa XPS insulation

3 1mm cement coating with fibreglass mesh

## Warmup 6iE™ WiFi Smart Thermostat

### Features + Benefits

Premium ultra-thin design (16 mm from the wall) with the world's first smartphone touchscreen providing effortless control at your fingertips

Personalise the 6iE™ with photo backgrounds, the only underfloor heating thermostat with this ability

Easy to setup. Simply scan the QR code which will appear on the 6iE using the MyHeating app and it will automatically connect to your WiFi network

Compatible with all Warmup Underfloor Heating Systems

Automatic control of your heating. SmartGeo™ learns your routines and location through background communication with your smartphone and lowers temperatures when you are away, only rising them up to your ideal comfort temperature in time for your arrival home saving you money and energy

Helps find the most efficient heat settings for your home

Finish – Onyx Black or Bright Porcelain  
Dimensions – 115(h) x 90(w) x 39(d) mm

6iE-01-OB-DC

Onyx Black

6iE-01-BP-LC

Bright Porcelain

### Warmup 6iE™ WiFi Smart Thermostat

World's first UFH controller with a Smartphone touchscreen.

The 6iE™ from Warmup is the world's first UFH thermostat with a smartphone touchscreen providing effortless control at your fingertips. Available in Onyx Black and Bright Porcelain with an ultra-thin (16 mm from the wall) design, it will look great in classic or contemporary homes. Personalise the 6iE™ with photo backgrounds, the only underfloor heating thermostat with this ability.

Set up is done in a matter of seconds, simply scan the QR code which will appear on the 6iE™ using the MyHeating™ app and it will automatically connect to your WiFi network.

- ✔ **Reduces Energy Use By Up To 25%\***  
Reduce energy use by up to 25% with the energy efficient MyHeating app technology
- ✔ **Automatic Control of Your Heating**  
Unique SmartGeo™ automatically turns down the heating when you're out
- ✔ **Reduce Energy Bills by up to £400**  
Using less energy and switching to a cheaper tariff with Warmup AutoSwitch™

### Warmup 6iE Thermostat – Specification

## Warmup Element™ WiFi Thermostat

Take a closer look at the Element™ features video, scan to find out more

### Warmup Element™ WiFi Thermostat

Warmup's Element WiFi Thermostat has been designed with simplicity and stylish functionality in mind. It brings energy efficient heating control to all Warmup floor heaters.

Warmup's Element™ WiFi Thermostat has been designed with simplicity and stylish functionality in mind. It brings energy efficient heating control to all Warmup floor heaters. Combining smart technology with simple, contemporary design, the Element™ WiFi Thermostat is the perfect all-rounder to control Warmup heating systems.

The Element™ WiFi Thermostat utilises simple touch buttons for accurate control of your underfloor heating system. Its sleek, unobtrusive design will suit any home décor.

Installation and set up is done in a matter of seconds, simply scan the QR code on the Element™ thermostat using the MyHeating™ app and it will automatically connect to your WiFi network.

- **Reduces Energy Use By Up To 25%\***  
 Reduce energy use by up to 25% with the energy efficient MyHeating app technology
- **Automatic Control of Your Heating**  
 Unique SmartGeo™ automatically turns down the heating when you're out
- **Reduce Energy Bills by up to £400**  
 Using less energy and switching to a cheaper tariff with Warmup AutoSwitch™

### Features + Benefits

Simple touch buttons for accurate control of your underfloor heating system. Its sleek, unobtrusive design will suit any home décor

Easy to setup. Simply scan the QR code on the Element™ thermostat using the MyHeating app and it will automatically connect to your WiFi network

Reduce energy use by up to 25% with energy efficient MyHeating™ app technology

Compatible with all Warmup Underfloor Heating Systems

Automatic control of your heating. SmartGeo™ learns your routines and location through background communication with your smartphone and lowers temperatures when you are away, only rising them up to your ideal comfort temperature in time for your arrival home saving you money and energy

Helps find the most efficient heat settings for your home

## Warmup Tempo™ Programmable Thermostat

WARMUP 3 YEAR WARRANTY

**3** YEAR LIMITED WARRANTY

WARMUP 3 YEAR WARRANTY

**Warmup Tempo™ Programmable Thermostat**  
The Tempo™ Digital Programmable Thermostat features a simple, clear design and intuitive controls for all Warmup underfloor heating systems. The Tempo™ thermostat enables end users to choose the time as easily as they would with a watch or clock and quickly set their programs – heat on when they want it and off when they do not need it. Suitable with all Warmup underfloor heating systems, the Tempo™ thermostat allows you to control the temperature of your underfloor heating to give you comfort, warmth and luxury to match your specific needs.

- ✔ **Better**  
Easy-to-use interface and intuitive design. With Tempo™, end users can simply program their settings to suit individual requirements, warmer when they are at home, lower when they are away or asleep
- ✔ **Faster**  
Set-up takes just minutes to get right the first time. It will help avoid wasting energy and achieve savings on utility bills
- ✔ **Smarter**  
Its Proportional Adaptive Function ensures the room does not over-heat, reducing wasted energy whilst also protecting the components inside

### Features + Benefits

- Stylish and contemporary design
- Clear screen displaying program details
- Easy control with dial and sliders
- Suitable with all Warmup electric and water underfloor heating systems
- Available in Porcelain White and Piano Black
- Perfect for the whole house with the exception of the bathroom

Finish – Piano Black or Porcelain White  
Dimensions – 90(h) x 113(w) x 23(d) mm (flush fit)

# Instinct Hot Water Cylinders

## Work hand in hand with your boiler

Combining quality, durability and efficiency, the Instinct hot water cylinder range has been designed to work in harmony with your boiler for fantastic results.

Available in sizes of up to 300 litres, Instinct's hot water cylinders can help keep your home wrapped in comfort all year long – whatever your central heating needs. We have six models in the range, all with a 2 year parts and labour warranty.

25 year vessel warranty

Less space required – no need for a water storage tank in the loft

Available in sizes up to 300 litres

Corrugated heating coil

Manufactured from duplex stainless steel

Manufactured in the UK

Instinct's hot water cylinders work with your boiler to provide your home with the heat and warmth you need, perfect for homes that have a high demand for hot water.

**Instinct hot water cylinders – a high quality addition to your central heating system.**

on Ideal Instinct<sup>2</sup> Combi Boilers

### Ideal Instinct<sup>2</sup> Combi Boiler

The Instinct<sup>2</sup> combination boiler is available in outputs of 24, 30 and 35 kW providing a cost effective heating solution for a range of domestic installations.

Complete with domestic hot water temperature controls including a switched preheat function, mechanical built-in timer and a digital operating status & diagnostic display, the Instinct<sup>2</sup> provides reliable control of the homes heating and hot water performance.

Finish – White

Dimensions – 700(h) x 395(w) x 285(d) mm

Installation – Quick and easy to install

Compact Design – Compact cupboard fit

Maintenance – Easy access to all components

Parts – Tried and tested technology (inc. Grundfos pump)

Flue – Fast Fix flue turret connections

Compatibility – Ideal OpenTherm wired room thermostat available for Boiler Plus compliance

Valve – Pump/diverter valve exercise & anti-cycling functions

Preheat Function – Fast hot water response through DHW preheat

Servicing – Fully supported by Ideal Service Division

### Ideal Halo Lite RF Thermostat

The Ideal Halo Lite RF is a single zone combi programmable room thermostat designed to benefit both installers and homeowners.

Boasting a large colour screen and easy to use button and dial interface. It has been tested to ensure it is intuitive and easy to understand. Specifically designed to work with the Instinct<sup>2</sup> by providing temperature control and Boiler Plus compliance in one simple device.

#### Features + Benefits

Designed specifically to work with Instinct<sup>2</sup> Boilers

Wireless control with robust signal

Maintain boiler health with on screen service and fault notifications

Fast and simple to install with out of the box pairing

Advanced settings to tailor controls to tenant and landlord needs

Easy to set heating schedules with up to 6 events per day

Load compensation provides easy Boiler Plus compliance

Frost protection for winter boiler and system protection

Finish – White

# Condensate Removal Pump

## Guarantees

**2** Years  
on Condensate Removal Pump

Easy To  
Install

## Condensate Removal Pump

One-piece centrifugal pump with tank.

Centrifugal pump for heavy and contaminated condensates. Suitable for gas condensing boilers producing acid (pH > 2.5) and hot condensates (55°C max, 80°C short peaks 10 minutes). Normally closed alarm contact that automatically cuts off the air conditioning system compressor or a solenoid valve.

### Features + Benefits

Exceptional durability and reliability

Quick and easy installation in any place

Quick and easy maintenance

Regular duty (IP44, 2 Litre tank capacity)

Finish – White

Dimensions – 129(h) x 146(w) x 287(l) mm

Installation – 4 fixing slot holes that allow the pump to be attached either on a wall or hanging from a ceiling (on M8 or smaller screw thread size)

No. of Inlets – 4 inlets Ø30mm

Accessibility – Quarter turn easily removable check valve, for PVC tubing 10 mm (3/8") or 6 mm (1/4")

Sound (in application at 1m) – Low level, quiet operation ≤ 45 dBA

Maintenance – Easily removable tank and reversible pump

Float – Oil and acid resistant

Stability – Reinforced mechanical structure improving shocks resistance

Pump – High discharge head

Flow Rate – High flow rate for shorter running time

Thermal Protection – 120°C (auto reset)

Max discharge head – 5.4m (65 l/h)

IP44

SIB3CE05IN23

Condensate Removal Pump

### Kit Contents

Integrated tank pump of 2.0 Litres

Integrated barb end check valve, Ø ext. 10mm

Power cable – 1.8m European plug (L,N,G)

Alarm wires – 1.0m

PVC Tubing – 6m long, 10 mm diameter

ACC02040 Ø 1"-1 1/4" – 1 1/2" (24-32-40m) adapter

2 screws + plug

## Guarantees

**2** Years  
on Pressure Safe System

# Pressure Safe System

## Pressure Safe System

Designed for gas boilers, the pressure safe system allows a safe discharge of condensates and pressure release valve water.

The pump SI-1800 collects condensates and pressure release valve water. A diffuser reduces the pressure of the water discharged in the pump. If a failure occurs, the pump sends a signal to a regulation box. The regulation box then closes the solenoid valve and stops cold water from entering the boiler.

### Features + Benefits

No risk of house floods

No risk of heating system shutting down due to frozen PRV discharge pipes

Notifies failures and informs when contact with the contractor is needed

No long expensive copper pipe runs

No ladder work, no drilling through wall

No water or energy loss

Finish – White

Dimensions – 171(h) x 279(w) x 130(d) mm

Sound (at 3.3ft or 1m in application) – ≤ 45 dBA

Safety – CE, EAC, UKCA

RoHS and WEEE Directives – Compliant

**PS1800** Pressure Safe System

### Kit Contents

Regulation box including 2 strain reliefs and 4 screws

Solenoid valve with 2 m cable bare ends (L,N,G)

Diffuser

SI1800 – centrifugal pump with tank of 2,0 l

PVC Tubing – 10 mm ID, 5m long

Ø10 to 10 mm (3/8" to 3/8") straight connector for clear tubing Ø10mm extension

2 bags of 2 screws + 2 rawl plugs

Ø int. 15-20-24-32-40 mm (Ø int. 5/8"-3/4"-1"-1 1/4"-1 1/2") inlet adaptor for PVC pipe

Condensate self-sealing evacuation connector, Ø10 mm int.

Ø10 to 20 mm (3/8" to 3/4") outlet adaptor for rigid tubing Ø20 mm

### Specification

Max Flow Rate	500l/h
Max Discharge Head	5m
Mains Supply	230V~ 50Hz - 70 W – 0.67A
Protection	IP20
Max Condensate Temperature	65 °C
Max Condensate Acidity	>2.5
Safety Switch	NC 4 A resistive – 250V
Detection	Integrated

# Circulating Pumps

Guarantees

**5** Years on Wilo Atmos PICO Circulating Pump

## Wilo Atmos PICO Circulating Pump

The Wilo Atmos PICO is the ideal entry-level pump with a simple user interface and standard design. Equipped with the most essential settings and functions, it can be put into operation for heating, air conditioning and cooling applications extremely quickly and easily.

### Features + Benefits

New & redesigned small circulator pump

Variable differential pressure, allowing the pump to modulate to the requirements of the system ensuring efficiency and energy savings

Ease of installation with the compact design, Wilo connector at the side and front access to motor screws

Easy to use settings, with a push button for selection, two operating modes and six curves identified by 5 LEDs

Finish – Green / Black / Grey

Dimensions –  
130(h) x 102(w) x 127(d) mm (4232693)  
180(h) x 102(w) x 139(d) mm (4232696)

# Circulating Pumps

new

## Wilo SB 30 Hot Water Pump

A bronze secondary circulation pump with a blocking current-proof motor and manual three-stage speed control allowing you to tailor its performance to your specific needs.

It's non overloading motor and unique hollow shaft ensures long, trouble-free operation.

To be used in domestic hot water circulation systems, suitable for drinking water only.

### Features + Benefits

WRc approved

Suitable for new and replacement

Condensation proof design as standard (-10°C to + 110°C)

Unique hollow shaft and sintered bronze filter ensures long, trouble free operation

Non overloading motor

Optional plug in timer for Legionellae protection

Finish – Green / Bronze

Dimensions – 125(h) x 132(w) x 133(d) mm

Weight – 2.5kg

### Operating Specification

Max. Fluid Temperature	65°C
Min. Fluid Temperature	2°C
Min. Ambient Temperature	0°C
Max. Ambient Temperature	40°C

# Radiators

## Guarantees

**10** Years  
on Compact Radiators

### Henrad Compact Radiators

With a slim profile and smooth, white finish, Compact radiators will blend into any room in the house, to provide guaranteed heating performance. Henrad Compact Range has been independently tested to ensure these radiators perform to a maximum working pressure of 10 Bar.

Finish – White, two coat paint process, each Henrad radiator is subjected to a multi-stage cleaning and paint process. The final powder coat is Traffic white (RAL 9016) which is stoved and cooled to give a perfect finish

Dimensions – See page opposite

Installation – Henrad Compact has 4 x ½" BSP connections as standard, system should be properly flushed and fitted in accordance with the British Code of Practice for the Treatment of Water in Domestic Hot Water Central Heating Systems

Safety – Tested to withstand 10 Bar

**SLIM** **STEEL** **Tested 10 Bar**

## Henrad Compact K3 Radiators

The Compact K3 is the ideal choice for low energy systems, providing outstanding heat output from a smaller footprint. Henrad Compact K3 has been independently tested to ensure these radiators perform to a maximum working pressure of 10 Bar.

Finish – Traffic white (RAL9016)

Dimensions – See below

Installation – Henrad Compact K3 has 4 x 1/2" BSP connections as standard

Safety – Tested to withstand 10 Bar

**STEEL** Tested 10 Bar

**For Low Energy Systems**

# Scale Inhibitors

### Magnetic Scale Inhibitor

The range of Instinct Pro Scale Inhibitors are manufactured by Scalemaster® in the UK and incorporate the original Scalemaster® patented technology.

**Copper Mesh Enhances Limescale Inhibitor Performance**

Instinct Pro and Scalemaster® in-line limescale inhibitors incorporate an active element (magnet or zinc anode) encased in pure copper mesh. The mesh increases the surface area of copper in contact with the water passing through the unit which enhances the electrochemical effect (removal of dissolved oxygen and treatment to prevent limescale precipitation). Only Scalemaster® products use this technology (Patent No. 2285936) which has been proven in independent tests (by British Gas R&D) to extend boiler life typically by 50% by preventing scale build up in hard water areas.

The copper mesh – zinc/magnet anode pair reduces the water flow rate through the unit by less than 1%.

Finish – Green

Dimensions – 130(l) x 28(d) mm (403328)

136(l) x 35(d) mm (403335)

Installation – Easily installed, slip couplings for easy fit

Maintenance – No moving parts, no maintenance required

Power Source – Needs no chemicals or power, earth bonding not required

Manufacture – Made in the UK with Scalemaster® patented technology

Protection – Single appliance protection

Accreditations – WRAS Approved Product

Economy – Saves on energy costs

## Introducing the range

Alongside Scalemaster®, a leading supplier of quality water treatment products for over 30 years, Instinct Pro has continued its commitment to product innovation, energy efficiency and the environment with the launch of a 250ml range of chemical solutions for heating systems. This new size evolution provides same dose as larger bottles but with less packaging waste whilst maintaining recyclable content.

All 250ml bottles are manufactured from 50% recycled High Density Polyethylene (HDPE)

All 250ml bottles are fully recyclable due to the white caps & security rings

All 250ml bottles will treat a 100 Litre (10 Rad) system

All 250ml bottles are Non-Hazardous formulations

250ml IN-100 Corrosion Inhibitor is NSF CIAS Approved

Ideal for dosing through a system filter

IN-100 in box quantities of 20, all other 250ml products in the range in mixed boxes of 20

## Heating System Chemicals

### IN-100 Corrosion Inhibitor

Prevents corrosion, hard water limescale precipitation and is essential for protecting hot water heating systems and maintaining operational efficiency.

The 5 Litre Bottle (504582) is concentrated and will dose 2000 Litres.

Dimensions –

250(h) x 55(w) x 55(d) mm (504513)

137(h) x 72(w) x 49(d) mm (504223)

275(h) x 175(w) x 125(d) mm (504582)

504513 300ml Aerosol

504223 250ml Bottle

504582 5 Litre Bottle (Concentrated)

**Do you need Rapid Inhibitor Test Strips?**

Page 56

### IN-300 System Cleaner

For commissioning new heating systems.

Removes installation foulants, flux, grease and debris suspended in water by flushing. Should be left in system minimum 2 hours, maximum 2 weeks.

The 5 Litre Bottle (504599) is concentrated and will dose 2000 Litres.

Dimensions –

250(h) x 55(w) x 55(d) mm (504520)

137(h) x 72(w) x 49(d) mm (504247)

275(h) x 175(w) x 125(d) mm (504599)

504520 300ml Aerosol

504247 250ml Bottle

504599 5 Litre Bottle (Concentrated)

### IN-500 Leak Sealer

For the internal sealing of inaccessible leaks and weeping joints. Forms a soft seal within 24 hours. Will not cause blockages in circulatory pumps or air vents.

Dimensions –

250(h) x 55(w) x 55(d) mm (504537)

137(h) x 72(w) x 49(d) mm (504261)

504537 300ml Aerosol

## i-Test

### Are you British Standard Compliant?

Poor water quality is the most common root cause of central heating breakdowns. It is now a requirement of BS 7593:2019 to carry out an annual check of heating system water quality as part of the system maintenance programme.

### What is BS 7593:2019 and why is it important?

BS7593 is the British Standard code of practice for the preparation, commissioning and maintenance of domestic central heating and cooling water systems. It applies to individual domestic properties when commissioning a new system for the first time, re-commissioning following the installation of a new boiler, or any other major remedial work on the heating system.

The latest iteration, (BS 7593:2019) came into effect on 31 May 2019. Compliance is a regulatory requirement within Part L of Building Regulations and includes carrying out a check on inhibitor level to prevent corrosion.

### Scalemaster® i-Test® – Inhibitor Tester

Scalemaster® i-Test® provides a revolutionary way to check if the heating system water is healthy and there is sufficient active inhibitor present to provide adequate protection against corrosion on metals typically in a system. It doesn't just check if there is some chemical in the water - it provides a real-time measurement of corrosion protection provided in reference to the target performance levels of the NSF CIAS tests.

Unlike single dipstick tests, i-Test® will show:

- The level of corrosion protection provided by any inhibitor present
- If there are any other chemicals (such as system cleaner) or flux residues present working against the inhibitor to increase corrosion
- If the corrosion in a system is actually worse than in the tap water used to fill it!

506104

Scalemaster i-Test

506111

Scalemaster i-Test Replacement Probe (Pack of 10)

506128

Scalemaster i-Test Replacement Probe (Pack of 50)

## 6 Simple Steps to Check Corrosion Inhibitor Protection

**Step 1**  
Download the app

**Step 2**  
Clean the probe

**Step 3**  
Insert the probe

**Step 4**  
Check tap water

**Step 5**  
Test system water

**Step 6**  
Generate report

### Test Methodology

i-Test works by measuring the corrosion between two different metals (iron and copper) suspended in a small sample of system water. The signalling unit sends data to a free-to-download App on your smartphone which decodes and processes the data to generate a report which can immediately be sent to the customer or printed on a local printer.

**Download the instructions and watch the video at [www.i-test.com](http://www.i-test.com) or [www.scalemaster.co.uk](http://www.scalemaster.co.uk)**

# Magnetic Filters

**Guarantees**

**2** Years on Magnetic Filters

**2** Years on Trade-Tec Filters

## 22mm + 28mm Magnetic Filter (Isolation Valves)

The Instinct ECO-Mag magnetic central heating filter is the ideal solution to help combat against costly and unnecessary system breakdowns caused by both magnetic and non ferrous particulate in fluid based systems. The Instinct ECO-Mag can be used on all types of central heating systems and it is recommended, for maximum effect, that the filter be fitted on the return leg of the system, between the last radiator and the boiler.

Finish – Black

Dimensions – 242(h) x 232(w) x 157(d) mm (INMAG22)

242(h) x 245(w) x 157(d) mm (INMAG28)

Triple Action Filter – Magnetic filter, non ferrous filter and manual air separator actively filters magnetite and non ferrous debris

Filter Magnet – 12000 gauss removable magnet

Dosing Capacity – 500ml large dosing pot capacity enables installers to quickly dose without having to drain down the whole system

Maintenance – Manual air bleed, even if the filter isn't serviced, it will never inhibit system performance as its unique connection, aided by full bore isolation valves, means that it will never block

Spares – Supplied with a full set of spare sealing washers and O-rings

Valves – Full bore isolating ball valves on inlet and outlet connections ensures that full flow is always achieved to maintain system performance

Installation – Can be installed anywhere, in any orientation on the pipework saving the installer time and money

<b>MAGFILTOOL</b>	Spanner for INMAG magnetic filters

## 22mm + 28mm Trade-Tec Magnetic Filter (Isolation Valves)

The Trade-Tec magnetic central heating system filter, featuring our innovative double gauze non-ferrous filter, is suitable for all central heating systems and can be fitted anywhere, in any orientation on the central heating circuit.

For maximum system protection however, we recommend that you fit the magnetic filter on the return leg of the circuit, between the last radiator and the boiler.

Finish – Black

Dimensions – 239(h) x 90(w) x 182(d) mm (TRMAGFIL22)

271(h) x 90(w) x 182(d) mm (TRMAGFIL28)

Filter – Actively filters magnetite & non-ferrous system debris, unique double gauze non-ferrous filter

Filter Magnet – Removable high strength magnet

Dosing Capacity – 500ml large dosing pot capacity enables installers to quickly dose without having to drain down the whole system

Maintenance – Manual air vent

Drain Valve – Low profile drain valve

Installation – 360° fully rotatable installation, convenient in line fitting, short installation footprint

<b>TRMAGFIL22</b>	22mm Magnetic Filter (Isolation Valves)
<b>TRMAGFIL28</b>	28mm Magnetic Filter (Isolation Valves)

### 22mm IntaKlean Nano Magnetic System Filter

The IntaKlean Nano is a magnetic system filter designed to remove ferrous and non ferrous material from fluid systems. This compact magnetic filter is designed for use on fluid heating systems, the perfect solution for where clean and efficient systems are required but a small installation footprint is paramount.

For maximum system component protection we advise that the IntaKlean Nano is installed onto the return leg of the circuit, between the last radiator and the boiler.

- Finish – Black
- Dimensions – 144(h) x 226(w) x 66(d) mm
- Filter – Effectively filters ferrous and non ferrous system debris, 800µm stainless steel filter cartridge for ultimate particle capture
- Filter Magnet – 12,000 Gauss, fully removable dry pocket magnet
- Dosing Capacity – 200ml
- Maintenance – Transparent settling chamber to easily identify servicing intervals
- Valves – Complete with isolating ball valves
- Compatible Fluid – Water, Water + Glycol 50% Max
- Installation – Specific compact design for small installation footprints, multiple inlet/outlet variations to suit any installation requirement

**IKN22** 22mm IntaKlean Nano Magnetic System Filter

### 3/4" IntaKlean Nano Magnetic System Filter

The IntaKlean Nano is a magnetic system filter designed to remove ferrous and non ferrous material from fluid systems. IKN34 has been specifically designed to be installed directly underneath the relevant heat source such as boilers, heaters and Heat Interface Units.

For maximum system component protection we advise that the IntaKlean Nano is installed onto the return leg of the circuit, between the last radiator and the boiler.

- Finish – Black
- Dimensions – 144(h) x 171(w) x 66(d) mm
- Filter – Effectively filters ferrous and non ferrous system debris, 800µm stainless steel filter cartridge for ultimate particle capture
- Filter Magnet – 12,000 Gauss, fully removable dry pocket magnet
- Dosing Capacity – 200ml
- Maintenance – Transparent settling chamber to easily identify servicing intervals
- Valves – Complete with isolating ball valves
- Compatible Fluid – Water, Water + Glycol 50% Max
- Installation – Multiple inlet/outlet variations to suit any installation requirement, direct under boiler connections

Filter**
**For  
Restricted  
Spaces**

## Fernox TF1 Sigma UB Filter (Suitable with Ideal Instinct<sup>2</sup> Combi Boilers)

Composite under boiler system filter with a brass manifold designed for easy installation in small, restricted areas and with concealed pipework. This high-performance filter can be installed directly under the boiler or in restricted spaces due to the compact, versatile design. The TF1 Sigma UB Filter offers the ultimate in installer choice and provides high efficiency protection against the build-up of system debris.

The Filter has been designed to ensure there is minimal pressure loss in addition to maintaining a high collection efficiency. The filter has been designed to capture a range of system contaminants, whilst also ensuring it cannot block, reduce flow through pipework or impact the performance of the heating system.

The TF1 Sigma UB Filter utilises a range of high-quality component parts that ensure the filter offers optimum performance. The three-way ball valve has been designed to allow users to easily operate by hand, whilst also providing a reliable serving procedure. The filter manifold includes a secure connection to the system and a robust service point allowing the filter to be drained and cleaned. The magnet is made using premium grade neodymium, enabling a high efficiency capture rate, as well as a robust filtration medium that will ensure a continued and consistent level of collection

Finish – Black

Dimensions – 88(h) x 189(w) x 73(d) mm

Compact Design – A high capacity, compact design

Installation – Ideal for use in restricted spaces

Valves – Integrated three way valve with filter isolation and cleaning functionality

Construction – Durable and robust construction, made from a high-quality glass reinforced engineering polymer, and non-porous forged brass

Filter – Will not block or restrict flow

Maintenance – Can replace return valve if required

Take a closer look at the Fernox TF1 Sigma Mini Filter features video

## Fernox TF1 Sigma Mini Filter (Suitable with Ideal Instinct<sup>2</sup> Combi Boilers)

The TF1 Sigma Mini is a compact high-performance system filter that utilises a powerful neodymium magnet to protect your system against the damaging effects of corrosion. The TF1 Sigma Mini has one of the smallest footprints of any filter in the marketplace, which means it can be easily installed directly below a boiler or in restricted spaces on horizontal or vertical pipework.

Finish – Black

Dimensions – 75(h) x 173(w) x 128(d) mm

Compact Design – One of the most compact filters in the market, specifically designed for restricted spaces with as little as 105mm clearance

Installation – Easy and quick to install

Construction – Designed to ensure there is minimal pressure head loss in addition to maintaining a high collection efficiency, whilst ensuring the filter cannot block

Maintenance – Mess-free, fast and easy servicing via the filter drain point, without the need to dismantle component parts

## IntaKlean Heat Pump Filter Magnetic Air Source Heat Pump Filter

The IntaKlean HP Magnetic Air Source Heat Pump Filter, featuring Inta's unique direct multi-layered non-ferrous fine filter, is the ideal solution to prevent costly and unnecessary system breakdowns caused by both magnetic and nonferrous particulates in air source heat pump systems.

As well as separating magnetic debris and trapped air in circulating system fluid, IntaKlean HP also includes a completely unique direct filter which contains a multi-layered stainless steel 300-micron fine gauze.

The system debris is forced directly into the filter, breaking down the debris, which then precipitates to the base of the pot.

The remaining magnetic debris is drawn to the centre of the filter and captured by the 11,000-gauss rare earth neodymium magnet.

Finish – Grey

Dimensions – 271(h) x 90(w) x 182(d) mm

Design – Actively filters magnetite and non-ferrous system debris

Filter – Unique direct non-ferrous system filter forces system debris directly into the filter core to capture as much system debris as possible

Construction – Multi-layered filter incorporating a 300-micron fine particle filter and a 800-micron mesh filter

Drain Valve – Low-profile drain valve

Installation – Fully removable 11,000 gauss magnet - service the system live

Maintenance – 360° rotation for ease of servicing, manual air vent

SweatBOX® features video

## Monument Masters SweatBOX®

The SweatBOX® is the ultimate plumbers soldering tray.

The SweatBOX® features a flame retardant engineering grade plastic with a patented clamp for holding different sizing of copper pipe up to 22mm or ¾".

There is a silicone strip edge to the Sweatbox ensuring heat is not conducted from the hot copper pipe to the plastic of the Sweatbox or the clients property. Adhesive rubber feet are included, helping to prevent scratches to surfaces. The sealed compartments are ideal for holding a gas bottle, separated blowtorch and all the essentials needed for soldering or sweating a joint. There's even a compartment for flux brushes.

## Soldering + Brazing

### Omat® Soldering + Brazing Pad

Quantity – 1  
Dimensions –  
240(h) x 240(w) x 5(d) mm (INST2361)  
155(h) x 155(w) x 5(d) mm (INST2363)

#### 250mm (10") Soldering + Brazing Pad

The INST2361 OMAT® is a patented, slotted protection mat for soldering pipes and tubes to protect walls, cables, carpets and other flammable material. The OMAT® slot has an overlap at the back which enables the protective mat to go either side of the tube or pipe being soldered so as to protect the surrounding area from burning or scorching as well as reducing the risk of fire. It is particularly useful under kitchen units and on pipes perpendicular to the wall where the use of a non-slotted mat would not easily cover the area. The OMAT® is designed for use on pipes and tubes 15 to 22mm diameter.

#### 150mm (6") Soldering + Brazing Pad

A patented, slotted protection mat or pad for soldering and brazing 15mm and 22mm copper tube and pipe. The size of the mat is 150mm x 150mm (6" x 6") for use in really awkward places where the larger sizes of Omat® would obstruct easy access of the soldering torch. It is designed to protect walls, cables, carpets and other flammable material surrounding a pipe being soldered/brazed. The slot in the Monument 2363L Micro Omat® has an overlap at the back which enables the protective mat to go either side of the tube or pipe being soldered/brazed so as to protect the surrounding area from burning or scorching, as well as reducing the risk of fire. It is particularly useful under kitchen units and on pipes perpendicular to the wall where the use of a non-slotted mat would provide inadequate cover of the area to prevent damage.

**INST2361** Omat® 250mm (10") Soldering + Brazing Pad

## Monument Masters + Bending

### 15mm Pipe Bender (With INST1715 15mm Copper Pipe Cutter)

The Pipe Bender is a single sized pipe bender for 15mm copper pipe (0.7mm wall).

Quantity – 1

Dimensions – 470(h) x 190(w) x 65(d) mm

#### Features + Benefits

Less fiddly – with the integrated hook and nylon guide, the integrated hook stop won't flop from side to side and the guide(s) won't fall out

Lighter in the hand than a combi – the pipe bender weighs 1.9kg

Less cumbersome – you are only using a bender for the size of pipe being bent

Better sight lines – as the bend is in the same plane as the arms of the bender it is easier to line up by eye

Smaller than a combi – the pipe bender has an arm length of 40cm approx. (a combi arm length is 65cm). It even fits in a tool bag

Dimensions – 35(h) x 40(w) x 40(d) mm

INST0269

#### 15mm + 22mm Autocut® Copper Pipe Cutter

Quantity – 1  
Dimensions – 55(h) x 55(w) x 40(d) mm

INST17151722

#### 15mm + 22mm Autocut® Copper Pipe Cutters (Restricted Access Handles)

Quantity – Pack of 2  
Dimensions – 170(h) x 70(w) x 30(d) mm

The Restricted Access Handles are designed as an aid for rotating the INST1715 + INST1722 in confined spaces where the users' hands will not fit. Made from bright zinc plated steel the handles engage in the outer casing of the INST1715 + INST1722. They are designed to be easily slipped on and off of the cutter body from either side of the pipe cutter, even when it is engaged on the pipe to be cut.

Dimensions – 250(h) x 110(w) x 50(d) mm

INST0361

Additionally there is a power tool drive to make this indispensable tool even more useful!

**Just remember to have your drill set to drive not reverse.**

### 15mm + 22mm Compression Fitting Olive Puller

Quantity – 1  
Dimensions – 150(h) x 60(w) x 40(d) mm

The INST2036 works by engaging the tool in the end of the copper pipe and then winding the appropriate bush - 15mm and 22mm included - counter clockwise until it stops at the olive to be removed. The threaded bush is then screwed into the compression nut which is held captive on the pipe on the other side of the olive. Then by rotating the handle clockwise the compression fitting nut is drawn up the pipe and pulls the olive off the pipe without damaging it.

INST2036

### 22mm Compression Fitting Olive Cutter

Quantity – 1  
Dimensions – 192(h) x 55(w) x 25(d) mm

INST2031

### 15mm Compression Fitting Olive Cutter

Quantity – 1  
Dimensions – 195(h) x 55(w) x 20(d) mm

The INST2030 15mm and INST2031 22mm are designed to remove an olive from copper pipe without damage to the pipe and without producing swarf. The latest version includes replaceable, interchangeable and reversible tungsten carbide blades.

Not for use on steel olives.

## Boilers, Flues + System Testing

### 30mb Gas Test Gauge

Quantity – 1

Dimensions – 550(h) x 75(w) x 30(d) mm

The INST0257 30mb Gas Test Gauge is Made in Britain and is made from tough plastic. It is used both for testing pipework installations with air for leaks before the introduction of gas and for checking and setting correct gas pressures on domestic and commercial appliances. Extruded cover slides off and may be clipped over the base for standing the tool vertically during use. Hanging tab permits vertical hanging from suitable protrusions. Marked in millibars, the scale adjusts for zeroing the water level.

INST0257

### Mains Water Pressure Test Gauge 11 Bar x 3/4" BSP

Quantity – 1

Dimensions – 285(h) x 55(w) x 40(d) mm

INST1510

### Dry Test Kit 15mm x 4 Bar

Quantity – 1

Dimensions – 130(h) x 55(w) x 30(d) mm

The INST1512 Pipe Dry Testing Kit is ideal for dry testing pipe work during and after installation. It has an easy to read triple scale bar, psi and kPa and is suitable for water, air, gas and petroleum oil pipes up to 4 bar, and for testing combi systems. Can be left on test, while flooring is laid to reveal any nail damage also test hot and cold supplies separately to ensure pipes are not crossed. Fitted with a Schrader Valve and 15 mm push fit fitting for quick and easy assembly and has a rubber boot for added protection.

INST1512

### Flue Brushes

Quantity – Pack of 3

Dimensions – 500(h) x 120(w) x 55(d) mm

## Going Green

We, as Instinct, have a responsibility to the environment. Our aim is to have 100% recycled packaging and continue to work with industry bodies to help customers use their water more efficiently, therefore reducing energy bills and ultimately carbon emissions.

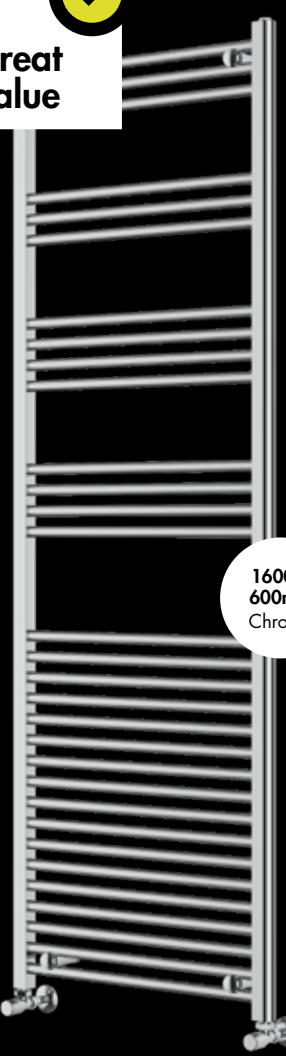

Where required our Instinct products are individually and legally tested to ensure compliance with CE and UKCA Marking. This not only covers material quality but also lifecycle, product impact testing, water integrity and traceability of manufacture.

When it comes to the paper used in the production of this brochure or the wood used in our Wall Panels and Furniture, we have sourced as many products as possible with an FSC® (Forest Stewardship Council®) label or PEFC (Programme for the Endorsement of Forest Certification) accreditation. The FSC® label guarantees that the product originated from managed forests, recycled paper or a combination of both. Products carrying the FSC® label are independently certified to assure that they come from forests that are managed to meet the social, economic and ecological needs of present and future generations.

As a brand, Instinct is committed to protecting the environment and is constantly exploring ways it can improve on this.

**Small steps, big change.**
